

Interview Summary

In a March 8, 2011 telephone conference between the undersigned and Examiner Douglas S. Lee, the examiner proposed combining claim 2 and claim 1 and 31 and 30 and adjust antecedence of their dependent claims as well as canceling 54-61. The undersigned proposed that similar amendments be made to claims 54 *et seq.* rather than canceling. The undersigned forwarded these proposed amendments (other than claim 61) to the examiner and in a telephone conference on August 3, 2011, the examiner agreed to entry of these amendments instead of incorporating claim 3 identified in the intervening Office action. Additionally, the examiner indicated a requirement for amendments to claim 61 and proposed the foregoing additions. The undersigned agreed and proposed the deletions for antecedent basis to which the examiner agreed.

No further art or claims was discussed or further agreement reached.
